LIMITED ONE YEAR WARRANTY

The Sterling water filter system is designed to operate at a maximum pressure of 900kPa (130psi) and at a maximum temperature of 40°C. Sterling Water Filters warrants this purifier to be free from defects in material and workmanship for a period of one year from the date of purchase (*Warranty period does not apply to cartridge which is consumable). This warranty is expressly limited to the repair or replacement at our premises of any part or parts proving defective providing the purifier has been installed in accordance with our Installation Instructions, all relevant Plumbing Codes, the installation of an approved Pressure Limiting Device preceding the purifier, and the pressure and temperature do not exceed the limits stated herein. This warranty does not extend to mechanical damage caused during installation or use. Save insofar as they may be excluded by law, this warranty is given in lieu of all other expressed or implied warranties or conditions and Sterling shall in no event be held liable for damages or delays caused by defects and assumes no responsibility for unauthorised repairs.

When space is tight under your sink you can mount the Sterling Water Filter either vertically or horizontally

INSTALLATION TIPS

- Do not exceed operating parameters for temperature or pressure
- Do not install outside. Internal use only
- For cold water use only

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected water that may contain filterable cysts.

Sterling recommends regularly scheduled maintenance and replacement of the filter cartridge(s)

Processed under a quality system certified as complying with ISO 9001 by an accredited certification body.
